

***“Come see what is new at Timmerman School!”***

**The Nature Trail and Outdoor Classroom is now open!**

Take a walk on the Nature Trail under the canopy of majestic oak, pine, maple and gum trees and enjoy the sights and sounds of nature. Birds, bees, crickets, and cicadas, along with the sounds of running water from the creek, will serenade you while you meditate in our brand new Outdoor Classroom. We greatly appreciate our scout troop and their leaders for providing our students a wonderful location in which to experience the great outdoors in an educational setting. As a matter of fact, Mrs. Moody’s insect camp has already taken advantage of our new location. Come out and experience it for yourself!

**NEW BUS, NEW BUS, WE HAVE A NEW BUS!!!**

This June, we began our search for a new bus. What we found was a slightly used full-sized school bus with only 21,000 very gentle miles on it. This Blue Bird International Diesel has beautiful blue high-back seats, overhead storage, underneath storage, public address and CD sound system and best of all, a great air conditioner system. It is already painted in Timmerman blue and white with all lettering and logos affixed. Our bus was delivered to us in like-new condition, both inside and out, with brand new Michelin tires and in perfect working order. On our inaugural trip, we took 36 students from our summer program to the Water Park at Fort Jackson and a great time was had by all. In honor of this special event, Coach Chris Braciszewski has passed his written and road test and, therefore, earned his bus driver’s CDL. Congratulations, Coach Chris!

**Future Multi-purpose Building Plans**

Mrs. Jordan has met with the original builders of the school, and a working set of plans has been offered for the new multi-purpose building. Presently, we have raised \$100,000 toward our goal of \$400,000 for our new facility. The future of Timmerman School looks very bright as we continue our goal of offering quality education at an affordable cost.
